

The MOST INNOVATIVE and EFFICIENT tables on the market

“NOTHING COMPARES”

Cuming Microwave Corporation , Avon, MA, is a global supplier of a Complete Line of EMI Absorbers and EMI Suppression Materials for the Defense & Automotive Industries.

“We at Cuming Microwave have several Belfab downdraft tables and are highly pleased with them. We use them in several different production floor areas. We have large and smaller models in every division of our company. The Belfab downdraft tables are essential to our operation and serve a very integral part of our production line”. Kevin Frost, Facilities Manager, Cuming Microwave Corp.

“When we first started we bought similar machines from several different manufacturers, and after 8 years, we now use exclusively Belfab to get the job done. We find them to be reliable and easy to clean. Whenever we need to buy another downdraft table, we do not even look anywhere else, it is going to be a Belfab downdraft table. **Nothing can compare.**”

BLOWER FEATURES

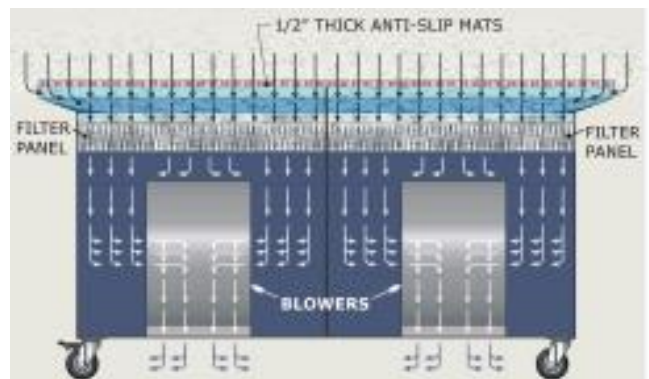

- Located on the clean side of filters for trouble free extended life.
- Energy efficient : **more suction with 50% less HP.**
- Revolutionary design: dual inlet blowers generating over 1800 CFM each.
- Airflow design generating **even suction distribution across the whole top area.**

TABLE TOP FEATURES

- **Innovative anti-slip and non-scuffing mats:** These robust **half-inch thick** mats secure parts in place and protect work from denting.
- **Ergonomic:** Special recessed base design offers foot clearance for workers comfort .The tabletop surface is **accessible from 360° around.**
- **Ease of maintenance:** The gas-cylinder assisted tabletop is fully counter balanced and auto-blocking for easy opening with one hand. This unique feature gives **easy access to filters and inner chamber for maintenance.**

FILTER FEATURES

- **Innovative design:** Filters act as dust trays to capture 100% of collected dust particles. They can be easily **emptied, cleaned and replaced in less than one minute!**
- **Flexible concept:** Can integrate a **variety of panel filter types** and thicknesses that can be selected to **optimize** both filtration performance and durability for your application.
