

# learnCUTRITE

## Stiles University Cut Rite Training Program

BASIC

PHASE 1

- CUTRITE110:** Introduction to Cut Rite Standard Optimizer
- CUTRITE120:** Introduction to Cut Rite Professional Optimizer
- CUTRITE130:** Introduction to Cut Rite Nesting Optimizer

STILES | HC  
UNIVERSITY ONLINE

Self-paced, online courses to introduce various Cut Rite modules for CNC or panel saw optimization by highlighting primary features, functions, and operations.

SO

**CUTRITE110** Standard (SO)  
Entry-level solution for panel saw applications that focuses primarily on material yield.

PO

**CUTRITE120** Professional (PO)  
Premier solution for panel saw applications that focuses on material yield, machine time, and production cost.

NE

**CUTRITE130** Nesting (NE)  
Premier solution for routing applications that focuses primarily on material yield.

Hybrid courses available if Cut Rite license includes multiple modules.

Enrollment also includes a brief, virtual follow-up Q&A session with an expert instructor to address any outstanding inquiries.

INTERMEDIATE

PHASE 2

**CUTRITE140:** Parametric Product Library

Self-paced, online course highlighting the features, functions, and operations of the libraries within the Product & Quotes (PQ) module, specifically the product, machine, and parts libraries.

Exploration of quoting components requires an additional, customized learning event.

Enrollment also includes a brief, virtual follow-up Q&A session with an expert instructor to address any outstanding inquiries.

PQ

INTERMEDIATE

ADVANCED

PHASE 3

**CUTRITEWEB:** Virtual Cut Rite Consultation

**CUTRITE600:** Onsite Cut Rite Consultation

Expand and customize the Cut Rite learning experience with virtual or in-person training.
